THE 1868 STATE CENSUS OF CAPE GIRARDEAU COUNTY, MISSOURI

The following is taken from Missouri Archives Bulletin, A Guide to County Records on Microfilm (Lainhart 1992):

"The need for statistical information about the population by the government of Missouri Territory resulted in the taking of a State census in the years 1814 and 1817. These census records listed only free white males. The next census was taken in 1821, the year statehood was achieved, and beginning in 1824 and following at four (4) year intervals through 1864 other state censuses were taken. The last such was taken in 1876.

The Census Act of 1824 and thereafter required that the sheriffs or assessors submit abstracts of their returns to the Secretary of State and that they file the original returns with the Clerks of the County Courts. Only a very few of the State Censuses have survived..."

Only small parts of the 1840, 1844, 1868, and 1876 censuses have survived for a few counties (only the 1868 and 1876 censuses of Cape Girardeau Co.). The 1876 Cape Girardeau County State Census has been previously transcribed (Keller and Keller 1976). The 1868 State Census is known to have survived only for Cape Girardeau County.

The 1868 census is important for a number of reasons. Primarily, this is the first census in which the full names of African-Americans were recorded. Thus, it provides valuable information on African-Americans after emancipation and before the 1870 Federal Census. In addition, it provides a record of older family members who may have passed away by 1870, and for children who may have died young.

The transcription was prepared from the microfilm version of the census, film #C1268. In addition, the original census in the Cape Girardeau Co. Courthouse was checked to verify that all pages appeared in the film. The microfilm is available from the Missouri State Archives, P. O. Box 778, Jefferson City, MO 65102.

Information included in the 1868 census was:

- Full name of every person
- Gender
- Race (White or Colored; Colored indicated as (B) after age in this transcription)
- Age class in these categories:
 - Under 10 years of age (indicated in this transcription as -10)
 - Of 10 and under 18 years (indicated in this transcription as 10-18)
 - Of 18 and under 21 years (indicated in this transcription as 18-21)
 - Of 21 and under 45 years (indicated in this transcription as 21-45)
 - Of 45 years and upwards (indicated in this transcription as 45+)
 - Persons between 6 and 18 (allows an indication of age 6-10 in this transcription)
- Whether each person could read or write (not included in this transcription)
- Whether each person was deaf and dumb, blind, or insane; along with exact age in years
- Numbers of livestock (summarized on page 82)

| | | |
|--------|---------|------|
| Horses | Jennies | Hogs |
| Mules | Cattle | |
| Jacks | Sheep | |
- Production of agricultural commodities (summarized on page 82)

| | | |
|--------|---------|----------|
| Wheat | Tobacco | Whiskey |
| Corn | Wool | Wine |
| Oats | Sugar | Molasses |
| Barley | Hay | |
| Rye | Hemp | |

Location is indicated by U. S. Public Land Survey townships (Cape Girardeau County is in Townships 29-33, from south to north), and the cities of Cape Girardeau and Jackson. Locations are on pages as follows:

- Township No. 29 – pages 1-3, 47-48
- Township No. 30 – pages 3-7, 25-26, 48-52
- Township No. 31 – pages 29-47, 70-71
- Township No. 32 – pages 52-70
- Township No. 33 – pages 71-81
- City of Cape Girardeau – pages 7-25
- City of Jackson – pages 26-29

Missouri state censuses did not record relationships or information about birth state or country.

Some cautions:

- The 1868 census was not paginated. I have left a one-line gap to indicate page breaks.
- The census taker was a relatively poor speller, and it is clear many of the names were spelled as heard. Try every possible spelling when looking for your ancestor.
- It became clear that a number of people were missed during this census. Just because your ancestor does not appear on this census does NOT mean they were not in Cape Girardeau County. Check the 1860 and 1870 federal censuses for additional information.
- Some people were enumerated twice, although I did not check to determine how many.
- It appears the census taker was not always conscientious about recording the 6-18 age class.
- In some cases, the indicated gender is incorrect. If I suspected this to be the case, I placed a (?) after the gender.
- The script of the census taker was sometimes difficult to read, meaning I made errors in transcription. I take full responsibility for any errors, and notify me or the Society if you suspect any of the transcribed information is in error.

----Bill Eddleman

ACKNOWLEDGMENTS

I would like to thank Dawn Detring for encouraging the transcription of this census, and for proofreading an earlier draft. Mr. Rodney Miller, Cape Girardeau County Clerk, and his staff graciously took the time to allow me access to the original census in the Cape Girardeau Co. Courthouse.

BEST OF LUCK IN FINDING YOUR ANCESTOR!
