The 1876 Census was the last State Census taken in Missouri. It seems particularly interesting that this census was taken in the year of the 100th anniversary of our country and we are now nearing the 200th year. The law governing the state census was repealed in 1885 by an act which included the provision that the decennial national census returns for the state serve as the basis for representation and all other matters previously cared for by the state enumeration.

There are probably numerous counties that still have copies of the 1876 census and we hope that they will be discovered and transcribed before they are lost or destroyed. It is reported that they are still in existence in Benton, Callaway, Laclede, McDonald, Montgomery and St. Francois Counties.

Mr. Robert Parkin, Past President of the St. Louis Genealogical Society, has done much to preserve and make available records of Missouri history and genealogy. We wish to express our appreciation to Mr. Parkin for encouraging us to undertake this transcription and for his effort in this publication and many others.

Our thanks to Judge Clarence Suedekum and County Clerk Rusby Crites for their assistance and interest in preserving this part of the history of Cape Girardeau County Missouri.
