

CAPE GIRARDEAU COUNTY, MISSOURI
Original Marriage Book 1805-1825
and Marriage Book "A" 1825-1838

1

Cape Girardeau was one of the original districts when the Territory of Missouri was organized in 1812; however, actual settlement is said to have been made as early as 1793 and fur traders were there much earlier. A census taken in 1799 gave the population as 416 whites and 105 slaves. A second census was taken in 1803, showing a total population of about 1025 whites and 180 slaves.

The earliest court records date from 1805, and marriages beginning in 1805 and through 1825 are recorded in the original marriage book at the courthouse in Cape Girardeau. Marriages from 1825 through 1836 are recorded in Register "A" of Marriages. All of the marriages recorded in those two books are listed below.

It should be noted that the present county of Stoddard was a part of Cape Girardeau Co. until 1835, and when Stoddard was formed in 1835 it included the area now covered by Dunklin Co. Also, a part of Madison County, and all of Wayne County were included in Cape Girardeau until 1818. Bollinger County was formed from Cape Girardeau, Wayne and Madison Counties in 1851. Therefore, early marriages in any of that area might be found in the records given here.

HOWELL COUNTY, MISSOURI
MARRIAGE BOOK "A", 1867-1871

Although the county of Howell was organized in 1857 from parts of Oregon and Ozark Counties, this earliest book of marriages does not begin until 1867. The same is true of other Howell County records. The courthouse was destroyed during the Civil War and with it, all records in existence at that time. Early histories of the county state that the people were subject to the tyranny of both armies and the county robbed of its people and wealth. Not more than fifty families remained after the war.

The original Marriage Book "A" is in the Courthouse at West Plains, but it is old, thin and in tatters. The recorder had prepared a typed copy of the marriages and the records given below are from that copy. Obviously, some names are misspelled, but they are presented here the way they appear in the courthouse record.

* * * * *

The earliest marriages of Howard County have been published through the year 1850. The records here given are taken from Marriage Book "C" beginning with the first entry for the year 1850 and continuing to the end of the book in December 1860. Persons who married during these years should be recorded in either the 1850 or 1860 census reports.

In order to save space, a number has been assigned to each minister or justice of the peace who performed marriages. The names are listed alphabetically at the end of the marriage records with their corresponding numbers.

page 127 (first entry for year 1850)

CASS COUNTY MARRIAGES, BOOK C, 1866-1870

1

The 800 marriages, here given, are transcribed from a microfilm copy of Marriage Book C, filmed by the compiler at the courthouse in Harrisonville, Missouri. The earliest marriages for Van Buren & Cass County (Book A 1836-1849 & Book B 1849-1865) were published by Mrs Woodruff in 1969 and are still available.

During the Civil War, the courthouse was the prime target of invading armies. Thus, according to tradition, the Recorder buried his records under the anvil in the nearby blacksmith shop prior to his enlistment. Upon his return it was discovered that, while the books were saved, dampness and insects had rendered them practically useless. A few years later, the first three books (A, B & C) were copied into a new ledger. The clerk was very meticulous and copied them verbatim in a bold beautiful script, underlining the recognizable mistakes. The compiler has retained the original spelling and underscoring. Recently this book has been laminated and rebound.

A "Key" to the names of the ministers and officials who performed the ceremonies will be found in this book beginning on page 26.
